BEAUMONT DE REPAIRE, Antoine, vicomte de

Meyrals 3.III.1733 – Toulouse 15.IX.1805

Officier de marine, chef d'escadre, chevalier de Saint-Lazare, member of the Cincinnati; émigré during the Revolution; nephew of the archbishop of Paris. He was also an amateur pastellist. A portrait of his relative is known from a modern copy with an extensive inscription *verso*. The copy suggests the original may have been similar to portraits by Joseph de Saint-Michel.
