

Neil Jeffares, *Dictionary of pastellists before 1800*

Online edition

CALIARI, Gabriele

Venice 1568/70–1596/1631

Veronese's son. Lanzi mentions "alcuni ritratti in pastello rarissimi" in the work of this figure painter and portraitist, known also to have been a dealer in pictures. Although described as pastel the drawings from the Woodner collection appear from photographs to be in coloured chalk. The basis of attribution is unclear.
