## **FAVRETO, Francesco Jacopo**

*f.l.* Treviso 1675

Also Giacomo; Favretto; Favreti. Nothing is known about this artist other than that a portrait of him was made by “Giacomo Lazzari” (*n.* Gian Antonio Lazzari) in Treviso in 1675 in pastel. Federici cites Melchiori who noted a “Francesco Favreto” in 1675 of whom nothing but the name is known, and later notes among the work of Giacomo Lazari that “Fece il Ritratto di Jacopo Faureti Pittore a Pastella.” Thieme & Becker call Favreto a pastellist, perhaps by confusion.
