HEEMS

Lille 1730 – p.1806

The Lille pastellist, whose dates are provided on the inscription, may be the pupil at the Académie royale who won prizes in 1755, although the accomplishment does not seem sufficient. He is also possibly the Louis-François-Joseph Heems, peintre en émail (it is unclear why he appears in AKL as a pastellist), known from the 1766 posthumous inventory of his wife Marie-Louise Moulin (and named in the registres de tutelles in 1790); they lived in Paris, quai des Morfondues.
