

Neil Jeffares, *Dictionary of pastellists before 1800*

Online edition

LONGHI, Pietro

Venice 1702–8.v.1785

The Italian painter of genre pictures and occasional portraits made a painting of a pastellist at work (Stanford University Art Gallery, inv. 1941.274), but, apart from the unseen record of a work in the Lanckoroński collection, there is no evidence that he worked in pastel.
