ROLAND DE LA PORTE, Henri- Horace

Paris 1724–1793

Still-life and animal painter; *agréé* 1761; *reçu* 1763. He also made a handful of oil portraits. Apart from a single unverifiable record, no pastel is known to have been made, although it has been suggested that he may be responsible for the still-life in Bordeaux thought to be by Vallayer-Coster (*q.v.*).
