VINCENT, François

fl. Paris 1752

Exhibited a number of portraits (medium unspecified) at the Académie de Saint-Luc in 1752, where he was already an ancien professeur; peintre de portraits et peintre de Mesdames de France et du duc de Penthièvre. He may be the author of two pastels of young women, sd "Vincent 1774" sold in Paris in 1999 with an attribution to François-Élie Vincent (*q.v.*). As the latter was not *reçu* until 1756, they cannot be conflated, but he does not appear to be listed in Cuzin's list of homonyms (Cuzin 2013, p. 546).
